

SHOCKWAVES FELT ROUND THE WE ARE AULD

Shockwaves, Goliaths, and Far Out Infrared Systems, Oh My! Semi Immortals go way back. So far back, you might be wondering why they are wasting thier time trying to get through to you, when they could instead be finishing up that final touch on a ever so productive surgery robot needed to rejuvenate that nasty blue pill they ate way back in the 5th century BC. The big guy to the left is a Deceptacon from the Hasbro Transformers series.

Quantum Qubits and Absolute Zero

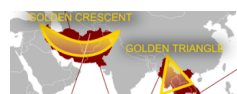

The first Quantum came from British Columbia and are found in use by Google, Lockheed Martin, Google and NASA. This quantum computer superconducting qubits is inserted into a dilution refrigerator and cooled to a temperature less than 1 Kelvin. It was built at IBM Research in Zurich. Qubits are electrons spinning, the spin direction determines the value.

AUTONOMOUS and OTTOMANUS, PRIME DIRECTIVES

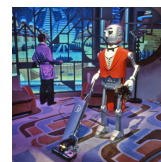

Primes are legend. Originating from Cybertron. Synthetic intelligence numbering millions. They're the Ghosts on the Cross. The Autonomous life force that surrounds everyone. Semi Immortality may have its roots here. There isn't one Prime. There are thousands, millions who all exist to judge and watch over the safety of the human kind.

Forever Young : Carl Jung : The Red Book

Carl Jung spent 16 years journaling his experiences with ghouls and primes. Originally called the black book, it was kept from the public for 50 years. Now called the Red Book his immediate family has made the works available to everyone.. Illuminated with alchemaic majicks and stories. Read it free.

LightSail 2 Crowdfunded Solar Sail Successful!

Solar sails use heat current from the sun to reach distant places without the need to carry fuel. "Today, we declare mission success — we're going to a higher orbital altitude without rocket fuel, just with the push of sunlight," Planetary Society CEO Bill Nye said in a press conference. Crowdfunding is a process where crowds, normal everyday joes such as yourself, donate money to worthy projects to get them up and running! Where to next? Maybe parachuting an asteroid to Mars might give it a bigger geomagnetic atmosphere? space.com/light-sail-2-solar-sail-mission-success.html
